Technical Skills

Programming Languages: Python, C/C++

Frontend Development: HTML5, CSS, JavaScript, React, TypeScript, Tailwind CSS

Backend Development: Django, MySQL

CS Fundamentals: Machine Learning, DBMS, OOP, DSA

Languages: English, Kannada, Hindi

Additional Skills: Photo and Video Editing, Canva Design, Drawing

Education

Dayananda Sagar University, Bengaluru — **Expected Dec 2028**
Bachelor of Technology in Computer Science & Engineering — Current CGPA: **7.5**

PACE UM PU College, Shimoga — **2024**
Class XII (PUC) — Marks: **83%**

Podar International School, Shimoga — **2022**
Class X (SSLC) — Marks: **79%**

Projects

Bharat-ID Shield — Decentralized Digital Identity Platform — **Sep 2025**

First Place Winner — Explore and Evolve Hackathon

View Repository

- Implemented a blockchain-based digital identity platform enabling tamper-resistant credential verification, secure government document management, and QR-based offline identity verification with bilingual support.

Smart Mobility Intelligent System — **Apr 2026**

Third Place Winner — Prompt Wars X Google Developers Hackathon

View Repository

- Built an AI-powered urban navigation system integrating Google Maps APIs and Open-Meteo to rank routes by live traffic, ETA, and IDW-based crime risk, with safety scoring, city heatmaps, and high-risk zone alerts.

FoodPass — Offline-Resilient Food Distribution

View Repository

- Built an offline-capable QR-based meal distribution system featuring duplicate-claim prevention, automatic transaction syncing, bulk QR generation, and real-time tracking through an admin dashboard.

Certifications

- **Introduction to Artificial Intelligence** — Infosys Springboard — Apr 2026
- **Introduction to NoSQL Databases** — Infosys Springboard — Apr 2026

Leadership Experience

Design Head — **Dayananda Sagar University ACM**

Lead the ACM chapter's design and digital presence by creating promotional posters and short-form videos for event campaigns, developing and maintaining the chapter's website, and contributing to the organization of technical workshops and hackathons.
